

Risk Assessment Title:	Coronavirus (Covid-19)	Locations:	SLH properties throughout the South Liverpool area	Date:	25 June 2020
Team:	Assets & Development Team	Manager:	Michael Gibney	Risk Assessment Number:	C19-009
		H&S Manager:	Danny McDonagh CMIOSH		

NB: This Risk Assessment is based on design hazard analysis, further assessment may be required as necessary. This assessment must be supported by a Dynamic Risk Assessment (DRA) carried out on-site before and during the work activity being carried out. The Manager is responsible for ensuring all safety measures are implemented and for monitoring the safety controls put in place. The Health & Safety Manager will audit the site(s) and advice of safety matters and improvements periodically.

Task/ Activity
Visits to tenanted and empty homes to complete pre & post inspections, property surveys, complaints visit and to gain access for compliance works
Supporting Documents (Policies, procedures, assessments)
<ul style="list-style-type: none"> • Government Guidance (this risk assessment will also consider government updates and adjust accordingly) • Existing Risk Assessments and Safe Systems of Work • SLH - Health, Safety & Wellbeing Policy • IOSH: Covid-19 Risk Assessment Guidance

Hazard (Something with the potential to cause harm, how will it be realised and what is the potential injury?)	At Risk (who might be harmed)	Risk			Control Measures	Additional Control Measures	Risk after control measures implemented		
		4 Severity	5 Probability	6 Risk			8 Severity	9 Probability	10 Risk
<p>Coronavirus (COVID 19) High Risk</p> <p>Presence of viruses and bacterial in the workplace</p> <p>Viruses and bacteria entering the body via ingestion, injection, direct contact with contaminated surfaces, mucosal membranes (mouth/nose/eyes).</p> <p>The virus is spread in minute water droplets that are expelled from the body through sneezing, coughing, talking and breathing.</p> <p>The virus can be transferred to the hands</p>	<p>Employees</p> <p>Members of the public (tenants)</p>	5	4	20	<p>General working arrangements</p> <ul style="list-style-type: none"> Flexible working allows for staggered start/finish and lunch times to minimise group contact Office rota to ensure limited number of team members in the office at any one point Team members are not to meet up during working hours unless required to do so, under instruction from their line manager Single site or property visits using existing lone working arrangements Risk assess visits to all 01 alerts – consider if visit necessary at this time or if it can be 	<p>General working arrangements</p> <ul style="list-style-type: none"> Briefing on the dangers of the virus, occupational hygiene, use of PPE, emergency procedures and open discussion given to team before site visits commence (1 July 2020) Daily morning briefings to outline work to be completed that day and assess any potential issues that might occur Government guidance and advice to be made available and updated/reviewed regularly Hand sanitisation stations installed in office <p>Property visits</p>	5	2	10

At Risk (column 2)	Severity (column 4 and 8)		Probability (column 5 and 9)		Risk Rating (column 6 and 10)		
E - Employees	1	No Injury, property damage	1	Very Unlikely	Severity X Probability = 1 to 5	Low	Acceptable Risk
C - Contractors	2	Minor Injury	2	Unlikely			
V - Visitors	3	+3 Day Absence	3	Likely	Severity X Probability = 6 to 14	Med	Requires Continuous Review (Proceed with Caution)
P - Public	4	Major Injury	4	Very Likely			
A - All	5	Death	5	Virtually Certain	Severity X Probability = 15 to 25	High	High Risk – (Stop Work)

<p>and from there to surfaces.</p> <p>It can survive on surfaces for a period after transfer (depending on such things as the surface type, its moisture content and temperature).</p> <p>If it is passed from one person to another, you may suffer from flu like symptoms, or breathing difficulties that may need hospitalisation. While many survive infection, some may die from the disease.</p>					<p>done remotely. Cases may need to be escalated to your manager to review.</p> <ul style="list-style-type: none"> Individuals to maintain 2m distancing at all times if possible and wear masks provided at all times during the visit. PPE including masks, gloves, sanitising gel provided, and stocks replenished as required. Re-usable PPE should be thoroughly cleaned after use and not shared between workers. Single use PPE should be disposed of so that it cannot be reused All work surfaces including equipment, work benches and facilities shall be decontaminated regularly (using antiseptic wipe or cleaning materials) Hands to be washed if visibly dirty or sanitised thoroughly 	<ul style="list-style-type: none"> Only enter where necessary Purpose of visit to be confirmed on door step 2m apart and tenant asked to go into another room during inspection All pre & post inspections by appointment – opportunity to remind tenant to keep distance and ask if they have any symptoms No property visit to last longer than 15 minutes Tenant to be asked to move to another room during inspection PPE waste in the car (gloves/masks etc.) to be double bagged before going into general waste. Bags to be provided If tenant does not adhere to social distancing or showing Covid-19 symptoms, visit to be ended immediately. Back to back visits then go home and change clothes Clean surfaces of vehicle (especially if shared with another household member) regularly.

Additional Comments (Actions identified by personnel on site, to make the task safer)

All team members have supported the development of this risk assessment in advance of visits re-commencing. It will be read through by the H&S Manager at a briefing to be conducted before visits start to ensure the team clearly understand its contents and the actions they need to take to complete their tasks safely. If agreed they will sign an acknowledgement sheet to confirm this. The assessment will be reviewed after two weeks to ensure its encouraging safe working practices.
